

MAY 12 1998

Dear Executive Director Snow:

00330

I urge you to ensure that CalFed creates and selects a "Smart Alternative" (a fourth alternative) based on conservation and restoration to provide reliable, high-quality water for California's people and wildlife.

The "Smart Alternative" would:

- \* restore and protect our watersheds and groundwater basins
- \* ensure effective conservation programs and economic incentives to use our water more efficiently
- \* maximize water efficiency before even considering costly new dams, reservoirs and canals
- \* restore California's fish, birds, wetlands, rivers, delta and bays

Please enter these comments into the formal record for your Draft Programmatic Environmental Impact Report and Statement.

Thank you,

Charlotte J. Jacobs

Fremont, CA 94538-3331

(Print full name and address plus zip)

*I am concerned about the threat of massive new dams, built with taxpayer's benefit a few. If needs are healthy estuaries, thriving wetlands and attention payed to our*

*fragile wildlife habitat, high quality water.*

Lester Snow
